

LEONARDO LOGISTICS S.P.A

# DEFENCE LOGISTICS SUPPORT

Tailor-made logistics services  
for the Armed Forces

## WHO WE ARE

Leonardo Logistics is a Leonardo Group company specialising in inbound and outbound industrial logistics, logistics design and engineering, transport, shipping and customised packing as well as a service provider for materials.

## MISSION & VISION

### MISSION

The mission of Leonardo Logistics is to support companies through sustainable logistics, based on operational excellence and the value of resources. We support our customers, who make logistics an indispensable and functional process for their industrial and commercial success.

### VISION

Leonardo Logistics aims to consolidate and strengthen its leading role by developing sustainable logistics based on operational excellence and the value of resources, with constant focus on the consumer.

## OUR PEOPLE: INTEGRATED LOGISTICS IS ABOUT COMPETENCE AND KNOWLEDGE

The knowledge, skills and competencies of the people working there are the real ASSETS of a service company like ours in terms of creating economic, personal and social value.

For us at Leonardo Logistics, it is important to reward merit in the performance of excellent activities, taking responsibility and leadership. We want to stimulate professional growth through continuous training and refresher programs to enhance skills and increase performance and job satisfaction.

## DEFENCE SUPPORT

The Armed Forces need platforms that are constantly operation ready (e.g. guaranteed availability of flight hours) and for this reason manufacturers supplement their product with logistical services that must ensure its operability.

In this context, we have specialised in defence logistics support for more than 20 years, offering tailor-made solutions to meet all required service levels.

Leonardo Logistics is actively involved in the integrated logistics activities for parts management, adopting an ILS (Integrated Logistics Support) process which allows the design and implementation of systems that are rationally conceived in terms of cost/performance ratio, and carries out engineering analyses on them aimed at minimising their inherent operational risk.

Leonardo Logistics operates at military bases where it manages the procurement of materials, their storage in warehouses, quality control and verification of the integrity of the parts. It prepares Fly Away Kits and manages handling and servicing of aeronautical parts alongside or in maintenance areas. It recovers offloaded material, coordinating all the reverse logistics processes to overseas suppliers and repair centres. Leonardo Logistics, with its own fleet of vehicles and drivers holding all the necessary authorisations, manages peer-to-peer shuttling of military parts between bases.

Receipt of materials

Quality control

Picking

Production line support

Shuttling

## PRESENCE AND BUSINESS VOLUMES

### WAREHOUSES

> 10.000 SMQ

### MOVEMENTS (WITHDRAWALS, PACKING, REPAIR DELIVERIES, COUNTER SERVICE)

>10.000 SMQ

### OPERATIONAL RESOURCES

> 150

### NATIONAL SHUTTLES

>500 trips/year

### PRESENCE IN ITALY

>30 military sites

LEONARDO LOGISTICS IS ALSO PRESENT ABROAD IN SUPPORT OF THE LEONARDO DIVISIONS.

### FLY AWAY KIT

- Preparation of complete maintenance kits to be sent to operational scenarios and missions abroad.

### MR&O PARTS LOGISTICS

- High value-added services for customers through detailed analysis of monitoring information on the status of aeronautical parts.

### AOG SERVICES

- Logistics personnel 24H-7/7 for the management of all Aircraft On Ground events.

**AERONAUTICA MILITARE**

**GUARDIA DI FINANZA**

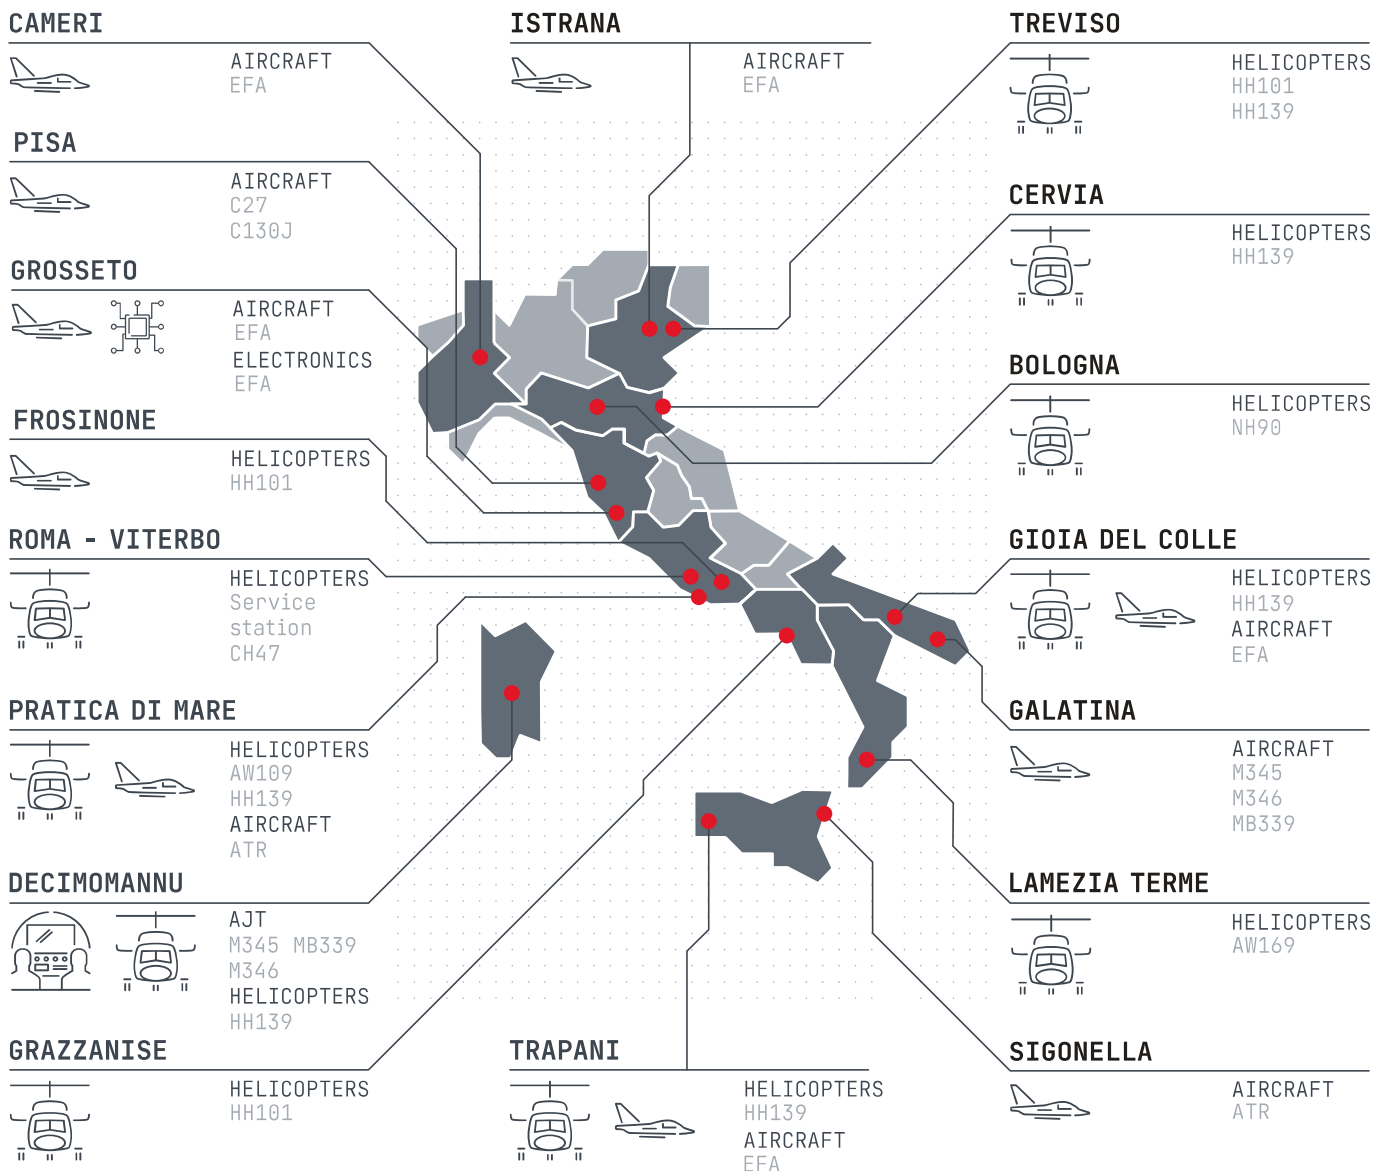

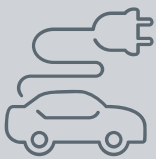

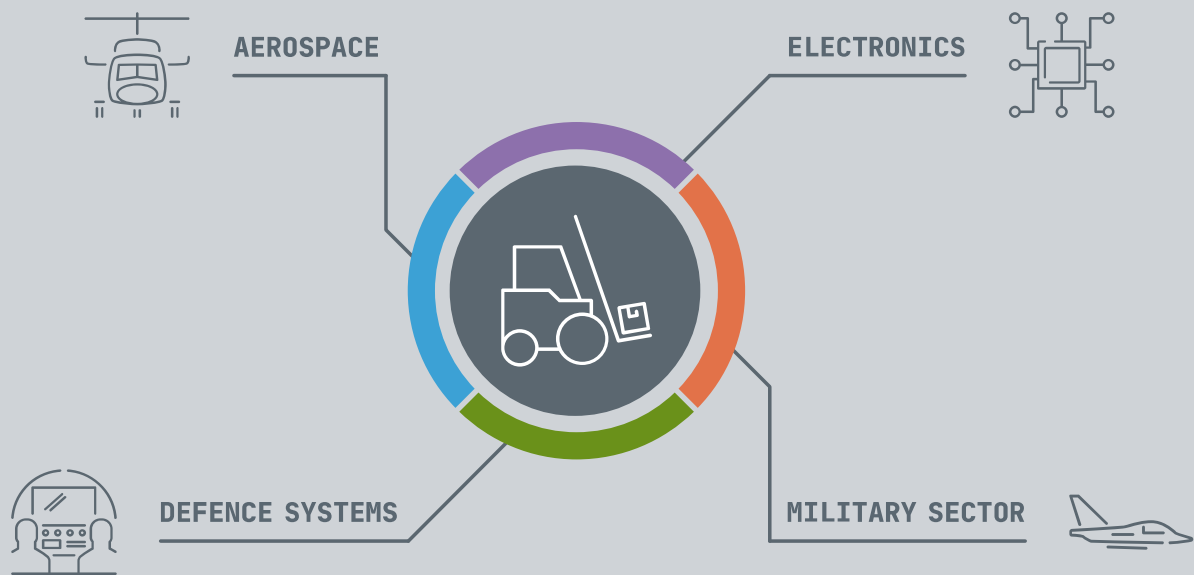

**MARINA MILITARE**

**ESERCITO ITALIANO**

Leonardo Logistics is present on Italian military bases, supports the Armed Forces nationwide and also supports LEONARDO products overseas.

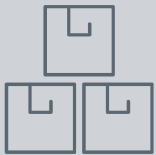

### **TRANSPORT MANAGEMENT**

Coordination of shipments with a focus on sustainable modes of transport.

### **GREEN PROCESSES AND RESOURCES**

Environmentally friendly handling equipment (e.g. electric, lithium-powered trolleys) to ensure energy savings and emissions reduction.

### **PACKING MANAGEMENT**

Designed according to sustainability criteria, with recyclable materials and managed by minimising waste and facilitating reuse.

### **PARTNERSHIPS**

Suppliers and contracts selected based on innovation and sustainability criteria used to develop long-term development goals and plans.

### **RESOURCES AND TALENT**

Developing our people and skills through management models based on the values of Leonardo's "identity" and diversity & inclusion.

## CONTACTS

### REGISTERED OFFICE

Piazza Monte Grappa n.4  
00195 Roma

### ADMINISTRATIVE HEADQUARTERS

Caselle Nord - Strada privata (Aeroporto Caselle)  
10077 S.Maurizio Canavese (Torino) -Italy
